

buzz box

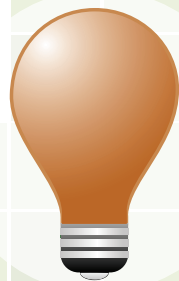

the new think tank for small business

monday, february 8

WHAT IS BUZZ BOX?

Monthly, real-scale events where we jump right into the challenges you're facing in your business, and share ideas, resources and strategies for solving them.

It's a new way to learn from fellow business owners how to innovate solutions that address the changing economy and adapt to the needs of our community.

WHO SHOULD ATTEND?

If you're an entrepreneur, local business owner, or even an employee of a local small business, Buzz Box is for you. We'll provide our own resident entrepreneurs, marketing experts and occasionally, special guests who bring their skills in finance, marketing, procurement & sales.

Don't come expecting the same 'ol business event. Do come expecting direct feedback & helpful ideas tailored to your business.

HOSTED BY MHBA

We love local business. And we believe that when your company is successful, we're all better off.

The Mile High Business Alliance is a non-profit network of locally owned businesses and organizations who are working together to build better community through better business. We hope you'll join us.
